Press Note.

Rehabilitation of Ex-servicemen of the Mysore State Forces.

Since the integration of the Mysore State Forces with the Indian Army and the subsequent demobilisation of the several units, which resulted in the release of a large number of officers and men prematurely, the Government of Mysore have been anxiously trying to resettle them in civil life and to provide some relief and assistance to these officers and men. The *Ad-Hoc* Committee that was appointed early in March 1951 to draw up comprehensive schemes for the resettlement of these men, recommended several schemes which were provisionally accepted by the Government of Mysore and recommended to Government of India for approval and sanction of necessary funds for the implementation of these schemes. The Government of India

said that, in view of the financial stringency, it was not possible to sanction all the schemes prepared and suggested that only the following schemes be taken up :—

1 A Land Colony for 350 men, based on Co-operative lines ;
2 A Co-operative Auto-riksha, Lorry Services for about 80 men ;
3 Technical Training facilities for about 200 men; and
4 Aid to individual settlers on land.

As the funds to be sanctioned by the Government of India were not adequate, and as the modified schemes would not provide for sufficient number of ex-servicemen, the matter was again taken up with the Government of India ; and, after further correspondence and personal discussions, the Government of India have agreed to sanction the following schemes :—

1 A Co-operative Land Colony at Hunsur Taluk for about 350 men at an estimated expenditure of Rs. 12,60,000.
2 An Auto-Riksha, Lorry and Auto-workshop scheme at Bangalore to provide for about 90 men ;
3 Technical Training facilities for about 200 men with stipends of Rs. 25 per mensem, for periods between six months and a year, and
4 Aid to about 400 individual settlers on land at an average of Rs. 500 per settler.

These schemes are to be financed proportionately by the Government of India, the Government of Mysore, the Mysore Soldiers' Board, and from contributions by the ex-servicemen themselves. The funds provided from the Governmental sources will be partly as grants and partly as loans, which will be recovered from the co-operatives in easy instalments. The Government of India have very recently sanctioned Rs. 1 lakh as loan to enable the immediate implementation of the schemes.

Steps are being taken for provision of necessary funds and for setting up of the departmental organisations for taking up of the schemes immediately. Full details of the schemes will be published very early and applications will be called for from the ex-servicemen of the Mysore State Forces, affected by integration, for joining the schemes.

To provide relief, steps have already been taken to provide alternative employment to a large number of ex-servicemen, and over 900 ex-servicemen have already been assisted to secure employment in the various Government Departments as well as in private concerns. A number of ex-servicemen have been allotted permits and licenses to deal in controlled commodities and electric power has been arranged to be supplied, on a priority basis, to some of the men for starting small industries.

It is also proposed to absorb as many of the ex-servicemen as possible in the Mysore State Police force.

Over 300 sites are being reserved for allotment to ex-servicemen at an upset price both in Bangalore and Mysore Cities.

The Public Service Commission have been requested to give priority to ex-servicemen in filling up vacancies and to relax the age limit rules in respect of these men.

Press Note.

As the Government of India have recently reduced the upply price of milo by Rs. 2 per maund, the benefit of this eduction has to be passed on to the consumers in the tate. It may be recalled that, in revising the issue price foodgrains with effect from 10th April, 1952, the price heat was revised from 2 3/8 seers to 1½ seers upee, the increase being as much as 60 per cent over the previous rate, whereas the increase in the sale price of rice and millets was 33⅓ per cent and 11·5 per cent respectively. This steep increase in the selling price of wheat was the result of the transfer of a considerable portion of the subsidy on the sale of milo to wheat so as to keep the price of millets, which is the poor man's food, as low as possible. Now that some relief has been afforded by the Government of India in the form of reduction in the supply price of milo, it stands to reason that the benefit of the reduction in the subsidy on milo is utilised to cheapen wheat, which would go some way to lighten the burden of the recent revision of issue prices to all classes of consumers. Accordingly, Government have decided to reduce with immediate effect the issue price of wheat from Re. 0-10-8 to Re. 0-8-0 per seer or from 1½ seers to 2 seers per rupee. Government earnestly hope that this measure will be welcomed by all sections of people and that advantage of the reduced issue price of wheat would be availed of fully by every one in the State.
